Informal, fast-paced presentations by Campbell faculty

**Thursday, February 11 3:30pm - 4:30pm**

Periodicals Reading Room, Wiggins Memorial Library

**What was the biggest stumbling block in your research process?**

"The validation process was tedious and time consuming, although worthwhile in the end."

**What is the subject of your research?**

"I do a lot of cultural criticism – analyzing how film, literature, and other arts reflect and shape the values and beliefs of the cultures that make and consume them."

**What excites you most about your research?**

"It's a new way to approach some well-known characters and passages that speaks powerfully to understanding how bodies and theology impact each other."

**dr. greg dedrick**

*Physical Therapy*

Muscle function and spinal stabilization in the clinic

**dr. kenneth morefield**

*English*

Emma, Merida, and the female bildungsroman

**dr. alicia myers**
